<b>Description</b>			
DcctDrv related misnamed functions and unused SSDN Device IDs should be fixed or removed.			

#### History

##### #1 - 05/23/2016 09:32 AM - Roger Tokarek

IntensityAccessor::readDcctIntensityAvg() does not read an intensity average.

ACNETInterface DEVICE\_ID\_DCCT = 0x0005 is not used.

DcctDrv commented code should be removed.

DcctDrv constructor for example has many named but possibly unused register references, eg. "intensityRegisters". Fix or remove.
